Our Blueprint for

Generational Equity

PORT MACQUARIE HASTINGS COUNCIL

Building a better future today for generations to come

The Blueprint for Generational Equity is designed to layout the key focus areas from our strategies and plans to build a better future today for generations to come. It will continue to develop with each Council and their term.

It enables us to be flexible with our business and our approach to planning. It outlines our key priorities to best respond to the current and future challenges and opportunities to deliver on the vision defined in Imagine2050.

Designed for continuous improvement, it will evolve as we continue to monitor performance and capabilities relative to our strategies and goals.

Drawing from Council's various strategies and plans the Blueprint identifies **Four Key Focus Areas** and the ambitions we aim to deliver.

Focus Area #1 | Corporate Planning

Focus Area #2 | Master Planning

Focus Area #3 | Land Use Planning

Focus Area #4 | Infrastructure

Each area sets out immediate key actions from our strategies and plans that we need to prioritise, set targets for and measure over time to continue delivering meaningful and relevant outcomes for now and for future generations to come.

Community Strategic Plan; Imagine2050

Our community's long term vision for the future

Council Plans and Strategies

Key strategies, plans and goals for the next 1-30 years required to achieve the vision set out in the Community Strategic Plan; Imagine2050

Blueprint for Generational Equity

Connecting our strategies and plans into a cohesive Blueprint with key focus areas

Four Key Focus Areas

PORT MACQUARIE HASTINGS COUNCIL

In a business as complex as ours, there are always competing priorities and demands on time and resources. In developing this Blueprint we have chosen to focus on the most critical levers of change to position us to deliver value over time.

Corporate Planning

Ambition Statement

Business excellence is essential to ensure that we serve the community and deliver sound infrastructure and services and respond to emergency situations.

Master Planning

Ambition Statement

We lead through a visionary lens to create generational equity that drives market demands.

Land Use Planning

Ambition Statement

To be leaders of contemporary practice in land use planning.

Infrastructure

Ambition Statement

We will bring our infrastructure planning and maintenance to a state which is fit for purpose.

Being Future Ready

Recognising the need to adopt a proactive response in the short term and a strategic approach to planning for the future, each key focus area includes priority actions aiming to deliver outcomes over the short to medium to long term.
