

## Section Improvements

6.1

Upgrade the Ocean Drive / McGilvray Road intersection to a roundabout

6.2

Upgrade to provide consistent 2-lane road cross section, including improved shoulders to cater for all road users (such as cyclists and buses).

6.3

Investigate opportunities for safer pedestrian crossing facilities.

6.4

Provide a shared path on one side of corridor through Bonny Hills

6.5

Formalise and improve bus stops to provide consistent high-quality facilities in the corridor. Provide frequent bus stops on both sides of the corridor.

6.6

Support road safety by clearing overgrown roadside vegetation and other roadside hazards.

## Section 6: Bonny Hills (Bonny View Drive to 800 Ocean Drive )

Section 6 is the main north-south road connecting Bonny Hills and Lake Cathie. This section also provides access to the Bonny Hills residential community, neighbourhood facilities and coastal attractions.

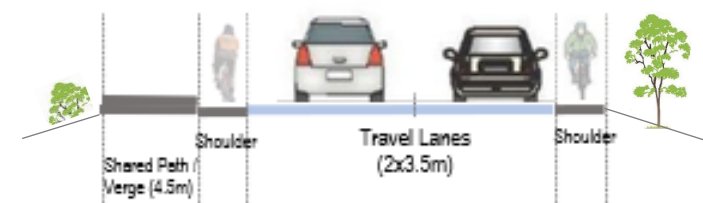

**Vision:** Connect surrounding towns, provide a safe and efficient transport route for all roads users, support growth in the region, and maintain the character and amenity of Bonny Hills.

### What you told us?

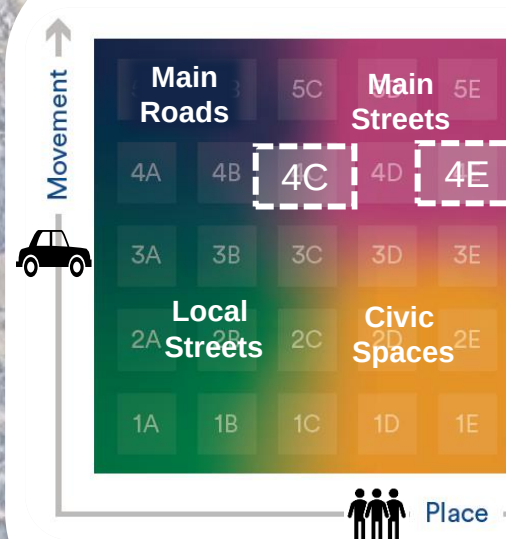

- Issues with overgrown vegetation within road reserve
- Improved bus services and shelters are needed
- Pedestrian pathways / shared paths and crossings are needed at key locations
- Poor road condition and sightlines at key locations
- Narrow road with limited shoulders for cyclists
- Ocean Drive congested and at capacity

### Typical Two Lane Road Cross-Section

### Movement and Place

This section has a high Movement Function supporting trips between Bonny Hills and Lake Cathie, or west to the Pacific Highway via Houston Mitchel Drive. This section also supports local trips in Bonny Hills.

This section has a medium Place Function, as there are direct residential frontages and local businesses (including shops and Reflections Holiday Park). This Place function increases on the weekends and during holiday periods when there are more visitors to the area.

Matrix adopted from the NSW Government *Practitioner's Guide to Movement and Place*

Section Improvements

7.1 Upgrade to provide consistent 2-lane road cross section, including improved shoulders to cater for all road users (such as cyclists and buses).

7.2 Plan for the delivery of safe and appropriate overtaking and passing lanes

7.3 Investigate opportunities for pedestrian connections to beach trials, and between Bonny Hills and North Haven.

7.4 Provide consistent paved road shoulders for cyclists, complemented by clear signage and line markings.

7.5 Provide suitable lane widths and widen curved sections of the road to cater for buses.

7.6 Support road safety by clearing overgrown roadside vegetation and other hazards.

Section 7: Bonny Hills to North Haven (800 Ocean Drive to Edith Street)

Section 7 provides a coastal connection from the southern coastal towns of North Haven and Laurieton to Bonny Hills and Lake Cathie.

**Vision:** Connect surrounding towns, provide a safe and efficient transport route for all road users along Ocean Drive, and support growth within the coastal towns.
